## ABOUT VERSYS

The University of NorthWest has launched an online student record verification system; called as VERSYS®, to enable faster, cost-effective and efficient verification and authentication of student's record.

With the help of newly developed verification system, supported by Online Verification Desk, Registrar's Office and IT Division, a data and systems security had been put in place to ensure data privacy and reliability.

The system would enable third parties to verify the status of student. It is to be mentioned that The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. Pursuant to Family Educational Rights and Privacy Act of 1974, information contained on the system will only be released, with the student's consent.
